Gum disease guide

2026 Periodontal Experts
ABP board-certified • LANAP laser

Board-certified periodontists for healthy gums & permanent implants

Periodontists are dental specialists with 3+ years of advanced training in gum health, bone grafting, and dental implant placement. Our network includes only American Board of Periodontology (ABP) certified specialists.

- ✔ Gum disease treatment (gingivitis & periodontitis)
- ✔ LANAP laser therapy — no cutting, no sutures
- ✔ Gum grafting for recession
- ✔ Dental implants — single, multiple, All-on-4
- ✔ Bone grafting & sinus lifts

⚠️ Signs you need a periodontist

🩸 Bleeding gums when brushing
😷 Persistent bad breath
🦷 Loose teeth or receding gums
🔄 Changes in bite or denture fit

Get screened →

Periodontal services we offer

🦷
LANAP Laser Therapy
FDA-approved laser treatment for gum disease. No scalpels, no sutures, minimal discomfort. Regenerates bone & tissue. Faster recovery.

🩸
Scaling & Root Planing
Deep cleaning below gum line. Removes plaque, tartar, bacteria. Non-surgical treatment for early-moderate gum disease.

🔧
Gum Grafting
Treat gum recession. Protect tooth roots, reduce sensitivity, improve aesthetics. Donor tissue or your own palate.

💎
Dental Implants
Permanent tooth replacement. Single, multiple, full arch (All-on-4). 95%+ success rate.

🦴
Bone Grafting & Sinus Lift
Restore jawbone for implant placement. Ridge preservation, sinus augmentation for upper molars.

🔄
Periodontal Maintenance
Ongoing care after active treatment. Every 3-month cleanings prevent disease recurrence.

👑
Crown Lengthening
Reshape gum tissue for restorative or cosmetic purposes. Expose more tooth structure.

🪥
Pocket Reduction Surgery
Surgical treatment for advanced periodontitis. Reduce deep pockets (5mm+). Save teeth.

Stages of gum disease — and how we treat them

Early detection saves teeth. Don't ignore bleeding gums.

🦷 **Gingivitis (mild)**
Red, swollen gums that bleed. Reversible with scaling, improved oral hygiene.

⚠️ **Moderate Periodontitis**
Gums pull away (recession), pockets 4-5mm. Scaling + root planing. LANAP laser option.

🚨 **Advanced Periodontitis**
Pockets 6mm+, bone loss, loose teeth. LANAP, pocket reduction surgery, possible extractions.

💀 **Tooth loss**
Severe bone destruction. Implants or bridges as replacement.

What to expect at your periodontist visit

📋 **1. Comprehensive exam**
Periodontal probing (measure pocket depths), X-rays, gum recession assessment.

📊 **2. Diagnosis & treatment plan**
Stage of gum disease, recommended treatment (LANAP, surgery, maintenance).

🦷 **3. Non-surgical treatment**
Scaling & root planing (local anesthesia). 1-2 appointments.

⚡ **4. Surgical if needed**
LANAP laser (minimal downtime) or traditional surgery. Implant placement.

🔄 **5. Maintenance program**
Regular 3-month cleanings. Monitor gum health.

😁 **6. Healthy smile**
No bleeding, no recession. Preserve natural teeth.

No obligation. We'll match you with a board-certified periodontist near you.

🏆 **2026 Average Treatment Costs**
- Scaling & root planing: $200-$800/quadrant
- LANAP laser: $1,500-$4,000/quadrant
- Gum grafting: $1,200-$3,000/tooth
- Dental implant: $3,500-$6,000

📋 **Insurance coverage**
Most dental plans cover scaling & root planing (80-100%), gum grafting (50-80%), implants (may have waiting period). We verify benefits and file claims.

⚡ **Health connection**
Gum disease linked to heart disease, diabetes, stroke, preterm birth. Treating gums improves overall health.

Why choose our periodontal network?

🏆 **ABP board-certified**
American Board of Periodontology — gold standard in gum health and implant surgery.

🔒 **Free consultation, no obligation**
Complete gum evaluation, X-rays, treatment plan — no pressure.

📄 **LANAP certified**
Fellowship-trained in laser gum treatment. No cutting, no sutures, faster healing.

⚡ **Advanced technology**
3D CBCT imaging, intraoral cameras, laser dentistry. Precise, comfortable care.

✅ Over 50,000 patients treated. Don't ignore bleeding gums — they're a sign of infection. Get your free consultation today and save your smile.
